## Summary

Adaptable UX/UI Designer with a one-year comprehensive and successful programming background inspired to collaborate to design and engineer innovative products. Collaborated to enhance team development of robust system solutions at AT&T. Certificate from Georgia Tech with skills in HTML5, CSS3, Javascript, User Research, Visual Wireframing & Prototyping.

## Skills

**Technical:** Java, Python, Azure, HTML5, CSS3, Javascript, React Native, React, Angular

**UX:** UX Research, Visual Prototyping, UI Design, Interaction Design, Information Architecture

## Projects

### Camp Horizon

UX Researcher & Tester, Visual Prototyper

Dec 2021 - Jan 2022

- Redesign of the Camp Horizon website including reorganizing the information and redesigning the UI
- Tested website for navigation issues, designed web and mobile prototypes, tested both, then redesigned them
- **Tools:** Zoom: user interviews and usability tests, Miro: organize the insights, Figma: create the prototypes

### MyPetPal

UX Researcher & Tester, Visual Prototyper

Oct 2021 - Nov 2021

- Pet care scheduling app for pet owners who want to track, schedule, and assign pet care tasks to caretakers
- Interviewed five pet owners, designed a prototype, tested it, and redesigned it based on the test insights
- **Tools:** Zoom: user interviews and usability tests, Miro: organize the insights, Figma: create the prototypes

### gthr

UX Researcher & Tester, Visual Prototyper

Sep 2021 - Oct 2021

- Travel social media app for travelers who travel in groups to spend quality time with friends and family
- Interviewed five group travelers, designed a prototype, tested it, then redesigned it based on the tests
- **Tools:** Zoom: user interviews and usability tests, Miro: organize the insights, Figma: create the prototypes

## Work Experience

### AT&T

Systems Developer

Alpharetta, GA

Feb 2021 - Oct 2021

- Developed APIs to enable rapid input of network resource data into ServiceNOW tables
- Communicated with other teams to ensure reliable deployment of network applications by arranging meetings, action item recording, and configuring and developing necessary pipelines
- Ensured functionality, reliability, and security of Kubernetes pods by deploying updated helm charts

## Education

### Bootcamp Certificate

User Experience Design

Georgia Institute of Technology

Sep 2021 - Mar 2022

### Bachelor's of Science

Computer Science

Georgia Institute of Technology

Aug 2017 - May 2020
